

# Tray Loaders

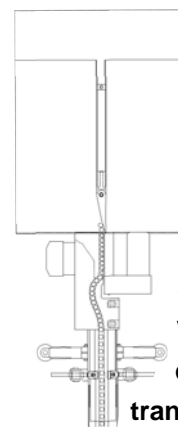

## **Covert-Technology** *A Precision-Covert Joint Venture*

Our model AT-900 Tray Loader is a fully automatic Pick & Place System. Vials are accurately counted, transferred into rows and then securely gripped, lifted and placed into the tray.

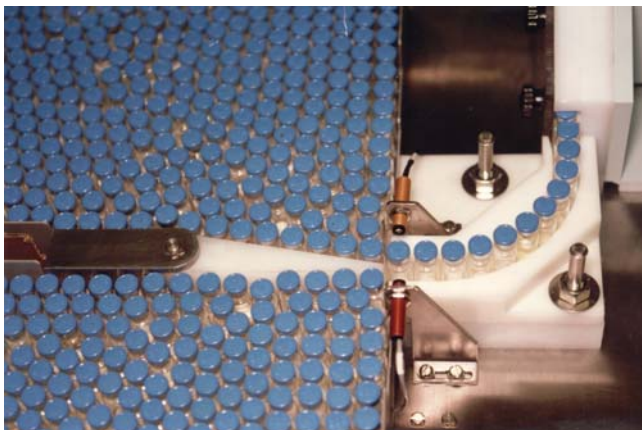

Our Loaders can handle multiple size products with minimal change parts or adjustments and changeovers can be completed in less

than 5 minutes. Operator friendly control interface allows for quick, efficient vial count changes.

Our model SC-600 Semi-automatic Tray Loader features rugged stainless steel construction and reliable operation with only two moving parts. Vials are accurately counted and then transferred into a dual tray

receiving station via a timing screw and gate assembly allowing for continuous product flow on your line.

### Vial Handling Equipment

- ◆ Accumulators
- ◆ Exterior Washers
- ◆ Unscramblers
- ◆ Patented Helical Transfer Device
- ◆ Freeze Dryer Automation
- ◆ Sanitary Conveyors
- ◆ Inspection Stations
