

Vial Accumulators

Covert-Technology **A Precision-Covert Joint Venture**

Precision Automation® provides systems to the Pharmaceutical Industry with the highest standards of quality and increased manufacturing efficiencies. The *Thru-Flow* Accumulator is a nonrotary system designed to reduce abrasion and ensure a first-in, first-out vial flow. Tall or unstable vials are easily handled through the system, helping to reduce product waste.

Automation is our specialty, whether you need a single accumulator or a complete turnkey system, Precision Automation® is your source. We have been providing our clients with superior service and equipment for over 50 years.

Accumulation Features

- ◆ Handles Vials from 1 ml to 1000 ml
- ◆ Up to 1000 Vials per Minute
- ◆ First-In/First-Out Vial Flow
- ◆ Easily Handles Tall or Unstable Products
- ◆ Gentle Product Handling—Minimizes Glass Abrasion
- ◆ Self Clearing
- ◆ Quiet Operation

Vial Handling Equipment

- ◆ Tray Loaders
- ◆ Exterior Washers
- ◆ Unscramblers
- ◆ Patented Helical Transfer Device
- ◆ Freeze Dryer Automation
- ◆ Sanitary Conveyors
- ◆ Inspection Stations
